

# Long Reach Cable Piercer

**Features**

- Accepts All Industry Standard 4mm Test Lead Plugs
- Ideal for Intrusive Measurement Taking where Back Probing is not Practical or Desired

**Description**

These extended cable piercers are ideal for intrusive measurement taking where back probing is not practical or desired. The longer shaft and non-wedge shaped head allow for easier access and insertion into very thin apertures.

NTE Type No.	Contains
72-081	1 Pair (Red & Black) of Long Reach Cable Piercers

**TL-022**
